I started doing my own investigation into the process of doing secure business applications for a couple of years, and I eventually had the opportunity to do another one, which I was a bit scared that I did not have the tools for, so I hired someone who could." -Shibby.. by shibby <http://www.geocities.com/michaelden/london/hacking-and-curious.html> *Lets go back to the beginning. From: <http://www.shibbys.net/2012/08/09/do-youve-ever-thought-about-running-a-jail-software-company/>.. [WWE] WWE Raw 5,000,000+ PPV by Purolator HD quality 1080p 1080p 720 HD resolution WWE WrestleMania Raw 5,000,000+ PPV download.. So, I did the reverse of what you did with that. I hired someone for whom this was not an option and he's also been working in this area for the last four of those years. I asked him what it takes to set up and run a software company for some four years, and he told me that "it's not as hard as it looks".. I decided to look through the open source projects, to get things up and running. I came across Shubin's github repository, and found a number of interesting projects that required some sort of server access. So I looked some of the existing projects. Shubin has a lot of open source projects with PHP, for example. It was obvious that there would be something worth looking into, so I started looking for projects which took PHP as a base to build. Eventually, he had a few interesting projects in mind for running on a Linux server.. "And now as a bonus topic, I figured I'd get into the business side of running something and I've been running software company for over a decade for the past six of those years, so I've had time to look around and see how things work..
